A SMART4ALL initiative
to develop a network of **female professionals**
in the area of **Smart** technologies, services,
applications and businesses

Emphasis on the geographical area of
Southeastern Europe*

Vision: To support female professionals, researchers and entrepreneurs, through professional development and social events. A core of female professionals active in the SMART4ALL project will reach out to the overall ecosystem, to women/girls interested in smart technologies field, specifically to women that have been involved in the Smart4all community and wish to voluntarily contribute to some of the network's activities

Activities:

- ✓ Organization of an empowering workshop for women active in the ICT, engineering and in all application areas of the SMART4ALL project
- ✓ Dissemination of female partners' work through the website, newsletter etc.
- ✓ Promotion of the inclusion of female professionals in various aspects of SMART4ALL
- ✓ Creation of tri-lateral groups of females from local/national companies and Universities and third parties
- ✓ Proposal for possible mentoring of female students and /or shadowing

* Albania, Bosnia & Herzegovina, Bulgaria, Croatia, Greece, Hungary, Kosovo, North Macedonia, Romania, Serbia, Slovakia, Slovenia
